

GENERAL MANAGER'S REPORT

Date submitted: July 24, 2025

RFP – On Board Security Services

The successful bidder is Independent Security Services (ISS) Atlantic, our current provider.

RFP – Transit Electrification Infrastructure Services

This RFP is for a consultant to provide specialized services in four key areas for the electrification initiative of the St. John's Transportation Commission, including: design assistance and preconstruction services, quality assurance construction services, performance guaranteed operation, and maintenance program. Bids are due July 30, 2025.

Van for GoBus Service

The second van was delivered to GoBus on Friday, July 18th. The first van has been working out very well for serving ambulatory rides. This allows more capacity on buses for customers using mobility devices or who are only able to travel in a bus. The number of daily rides booked on a van is about the same as a bus.
